

## EDUCATION

### **B.Tech, Computer Science & Engineering**

Lovely Professional University  
2022 - 2026

### **Senior Secondary (XII), Science**

BD College Patna  
(BIHAR BOARD board)  
Year of completion: 2021  
Percentage: 76.00%

### **Secondary (X)**

Gyanodya Gurukul, Danapur , Patna  
(CBSE board)  
Year of completion: 2019  
Percentage: 74.00%

## PROJECTS

### **Nexus Connect**

Mar 2024 - Mar 2024

<https://github.com/sauravsuman12210691/NexusConnect>

A MERN (MongoDB, Express.js, React.js, Node.js) social media website is a dynamic platform that allows users to connect, share, and interact with each other. Users can create profiles, post updates, share photos and videos, and engage with content through likes, comments, and shares. The MongoDB database stores user data and posts, while Express.js facilitates server-side operations. React.js is used for building a responsive and interactive user interface, providing seamless navigation and a smooth user experience. Node.js powers the backend, handling requests, managing user authentication, and facilitating real-time updates. Together, these technologies create a powerful and scalable social media platform for users to connect and engage with each other.

### **Doctor's**

Jan 2024 - Jan 2024

<https://sauravsuman12210691.github.io/Doctor-s/>

Our responsive Doctor's website offers a seamless experience across all devices, ensuring patients can access vital information and services anytime, anywhere. From booking appointments and accessing medical records to learning about various treatments and specialties, our website adapts effortlessly to desktops,

tablets, and smartphones. With intuitive navigation and a clean layout, patients can easily find what they need, promoting better engagement and trust in our healthcare services.
